**The July meeting was very nice.** We were forced indoors because of the heat. Thank you Bob & Glenna for your hospitality. We enjoyed brisket and many wonderful side dishes. It was a covered dish supper to celebrate the fine SWGS water garden tour this year. The tour was well attended. We discussed a few suggestions for an even more successful tour the next time which will be in 2013. We do it every other year now.

**We decided not to have an August meeting** due to the hot weather. Today it got down in the 70's—wasn't that great! I guess you never can tell with the weather. We need to be thankful for the rain we have had. I know there were a lot of people praying for that. I hope no one suffered tree damage due to the 80+ mph winds.

Jimmy & Wendy Johnson's water garden

**Member reports loss of Koi...**The Thompsons called in Conrad Kleinholz when they lost a couple of fish. It seems their ph level in their pond was way too low (5.0). They used the liquid drops to test the ph level. A product to adjust the ph level is available. He used the one to increase the ph and raised it to 6.5. He purchased the product at the Real McKoi and used it all. JC would still like the ph level a little higher. Gotta buy more stuff!!

Luke & Stephanie Rogers' water garden

The next meeting is September 19<sup>th</sup>. More on that in the next newsletter.

*All Water Garden Meetings are Open to the Public*
